Note: When state Medicaid coverage provisions conflict with the coverage provisions in this clinical policy, state Medicaid coverage provisions take precedence. Please refer to the state Medicaid manual for any coverage provisions pertaining to this clinical policy.

Description¹

This policy describes WellCare North Carolina coverage for therapeutic and non-therapeutic abortions.

Definitions:

I. Therapeutic Abortion:

A therapeutic abortion is the termination of a pregnancy where fetal heart tones are present at the time of the abortive procedure. The termination of a pregnancy may be induced medically (prostaglandin suppositories, etc.) or surgically (dilation and curettage, etc.). This includes the delivery of a non-viable (incapable of living outside the uterus) but live fetus, if labor was augmented by Pitocin drip, laminaria suppository, etc.

II. Non-Therapeutic Abortion:

A non-therapeutic abortion is any termination of a pregnancy where there has been no manual or surgical interruption of that pregnancy (missed, incomplete, spontaneous, etc.).

III. Qualified physician:

Qualified physician means the same as found in G.S.90-21.81(7a).

Policy/Criteria¹

- I.** WellCare of North Carolina® shall cover therapeutic and non-therapeutic abortions when the procedure is medically necessary provided in accordance with federal and state laws and regulations.

A. *Therapeutic Abortions* – Coverage is provided when:

1. A pregnant member suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the member in danger of death unless an abortion is performed; **OR**
2. The pregnancy is the result of an alleged act of incest; **OR**
3. The pregnancy is the result of an alleged act of rape.

CLINICAL POLICY WNC.CP.271
THERAPEUTIC AND NON-THERAPEUTIC ABORTIONS

B. *Non-Therapeutic Abortions* – Coverage is provided when:

1. The termination of a pregnancy occurs without any manual or surgical interruption of that pregnancy (missed, incomplete, spontaneous, etc.).

C. *When an Abortion Is Not Unlawful*

1. Refer to S.L. 2023-14, as amended, for established provisions that govern the coverage of abortions in North Carolina.

➤ **Note:** Refer to Criteria II of this document for circumstances when Medicaid does not cover therapeutic abortions that are lawful.

II. Procedures, products, and services related to this policy are not covered when the federally mandated requirements are not met.

Background¹

I. Requirements for and Limitations on Coverage:

A. *Life-Threatening Conditions* - Federal regulations require Medicaid to obtain certification (Refer to Background II), in writing from the physician performing the abortion attesting to the fact that in his/her professional judgment that the life of the mother would be endangered if the fetus were carried to term.

1. If the abortion was necessary to save the life of the mother—regardless of whether the pregnancy was a result of rape or incest—the medical diagnosis and health records must support the certification.
2. An appropriate diagnosis code, legally induced abortion, must be indicated on the claim.
3. Health records supporting the certification must be submitted to DHHS fiscal contractor, along with the abortion statement. Health record documentation may include history, physical, operative report, office admission history notes and physical, discharge summary, ultrasound report, consult reports and pathology reports.
4. The requirements of parental consent for a minor (See Background III) do not apply when a medical emergency exists that so complicates the pregnancy as to require an immediate abortion.

B. *Incest* - Medicaid requires the physician performing the abortion to submit certification (Refer to Background II), in writing attesting to the fact that in his/her professional judgment the member was a victim of incest.

1. When submitting a claim for an abortion performed due to incest, an ICD-10-CM diagnosis code must be billed indicating the perpetrator of the assault, in addition to a diagnosis code indicating rape.
2. The health record documentation supporting the certification must be available for review, if necessary.

THERAPEUTIC AND NON-THERAPEUTIC ABORTIONS

3. The requirements of parental consent for a minor (See Background III) do not apply when a medical emergency exists that so complicates the pregnancy as to require an immediate abortion.

C. **Rape** - Medicaid requires the physician performing the abortion to submit certification (Refer to Background II), in writing attesting to the fact that in his/her professional judgment the member was a victim of rape.

1. An appropriate ICD-10-CM diagnosis codes for rape, must be indicated on the claim.
2. The health record documentation supporting the certification must be available for review, if necessary.
3. The requirements of parental consent for a minor (See Background III) do not apply when a medical emergency exists that so complicates the pregnancy as to require an immediate abortion.

II. The Abortion Statement:

- A. Providers must certify in writing that in their professional judgment a therapeutic abortion was performed for one of the reasons listed in Background I. The primary physician or surgeon is responsible for obtaining the abortion statement. All claims will be denied until the appropriate statement is on file. Please see **Attachments B and C** of State of North Carolina Medicaid *Clinical Coverage Policy No: 1E-2 Therapeutic and Non-therapeutic Abortions* located at [Program Specific Clinical Coverage Policies | NC Medicaid \(ncdhhs.gov\)](https://www.ncdhhs.gov/program-specific-clinical-coverage-policies). for instructions on form completion, as well as a link to the form.

III. Parental Consent for a Minor

- A. Providers shall comply with requirements for parental consent as found in NCGS 90-21.7 for abortions performed in North Carolina..
- *Note: The requirements of parental consent do not apply when a medical emergency exists, as indicated in NCGS 90-21.9.*
 - *Note: By submitting the abortion statement for a minor, the physician is verifying that the requirements in this section have been met.*

CLINICAL POLICY WNC.CP.271
THERAPEUTIC AND NON-THERAPEUTIC ABORTIONS

North Carolina Guidance

Eligibility Requirements

- a. An eligible beneficiary shall be enrolled in the NC Medicaid Program (Medicaid is NC Medicaid program, unless context clearly indicates otherwise);
- b. Provider(s) shall verify each Medicaid beneficiary's eligibility each time a service is rendered.
- c. The Medicaid beneficiary may have service restrictions due to their eligibility category that would make them ineligible for this service.

EPSDT Special Provision: Exception to Policy Limitations for a Medicaid Beneficiary under 21 Years of Age

- a. 42 U.S.C. § 1396d(r) [1905(r) of the Social Security Act]
Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) is a federal Medicaid requirement that requires the state Medicaid agency to cover services, products, or procedures for Medicaid beneficiary under 21 years of age if the service is medically necessary health care to correct or ameliorate a defect, physical or mental illness, or a condition [health problem] identified through a screening examination (includes any evaluation by a physician or other licensed practitioner).

This means EPSDT covers most of the medical or remedial care a child needs to improve or maintain his or her health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

Medically necessary services will be provided in the most economic mode, as long as the treatment made available is similarly efficacious to the service requested by the beneficiary's physician, therapist, or other licensed practitioner; the determination process does not delay the delivery of the needed service; and the determination does not limit the beneficiary's right to a free choice of providers.

EPSDT does not require the state Medicaid agency to provide any service, product or procedure:

1. that is unsafe, ineffective, or experimental or investigational.
2. that is not medical in nature or not generally recognized as an accepted method of medical practice or treatment.

Service limitations on scope, amount, duration, frequency, location of service, and other specific criteria described in clinical coverage policies may be exceeded or may not apply as long as the provider's documentation shows that the requested service is medically necessary "to correct or ameliorate a defect, physical or mental illness, or a condition" [health problem]; that is, provider documentation shows how the service, product, or procedure meets all EPSDT criteria, including to correct or improve or maintain the beneficiary's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

EPSDT and Prior Approval Requirements

THERAPEUTIC AND NON-THERAPEUTIC ABORTIONS

1. If the service, product, or procedure requires prior approval, the fact that the beneficiary is under 21 years of age does NOT eliminate the requirement for prior approval.
2. **IMPORTANT ADDITIONAL INFORMATION** about EPSDT and prior approval is found in the *NCTracks Provider Claims and Billing Assistance Guide*, and on the EPSDT provider page. The Web addresses are specified below:

- g. Reimbursement - Provider(s) shall bill their usual and customary charges. For a schedule of rates, refer to: <https://medicaid.ncdhhs.gov/>.

Important Reminder

This clinical policy has been developed by appropriately experienced and licensed health care professionals based on a review and consideration of currently available generally accepted standards of medical practice; peer-reviewed medical literature; government agency/program approval status; evidence-based guidelines and positions of leading national health professional organizations; views of physicians practicing in relevant clinical areas affected by this clinical policy; and other available clinical information. The Health Plan makes no representations and accepts no liability with respect to the content of any external information used or relied upon in developing this clinical policy. This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. "Health Plan" means a health plan that has adopted this clinical policy and that is operated or administered, in whole or in part, by Centene Management Company, LLC, or any of such health plan's affiliates, as applicable.

The purpose of this clinical policy is to provide a guide to medical necessity, which is a component of the guidelines used to assist in making coverage decisions and administering benefits. It does not constitute a contract or guarantee regarding payment or results. Coverage decisions and the administration of benefits are subject to all terms, conditions, exclusions and limitations of the coverage documents (e.g., evidence of coverage, certificate of coverage, policy, contract of insurance, etc.), as well as to state and federal requirements and applicable Health Plan-level administrative policies and procedures.

CLINICAL POLICY WNC.CP.271
THERAPEUTIC AND NON-THERAPEUTIC ABORTIONS

This clinical policy is effective as of the date determined by the Health Plan. The date of posting may not be the effective date of this clinical policy. This clinical policy may be subject to applicable legal and regulatory requirements relating to provider notification. If there is a discrepancy between the effective date of this clinical policy and any applicable legal or regulatory requirement, the requirements of law and regulation shall govern. The Health Plan retains the right to change, amend or withdraw this clinical policy, and additional clinical policies may be developed and adopted as needed, at any time.

This clinical policy does not constitute medical advice, medical treatment or medical care. It is not intended to dictate to providers how to practice medicine. Providers are expected to exercise professional medical judgment in providing the most appropriate care, and are solely responsible for the medical advice and treatment of members/enrollees. This clinical policy is not intended to recommend treatment for members/enrollees. Members/enrollees should consult with their treating physician in connection with diagnosis and treatment decisions.

Providers referred to in this clinical policy are independent contractors who exercise independent judgment and over whom the Health Plan has no control or right of control. Providers are not agents or employees of the Health Plan.

This clinical policy is the property of the Health Plan. Unauthorized copying, use, and distribution of this clinical policy or any information contained herein are strictly prohibited. Providers, members/enrollees and their representatives are bound to the terms and conditions expressed herein through the terms of their contracts. Where no such contract exists, providers, members/enrollees and their representatives agree to be bound by such terms and conditions by providing services to members/enrollees and/or submitting claims for payment for such services.
