

Dear Provider,

WellCare of North Carolina (WellCare) has partnered with Evolent (formerly New Century Health) to implement a new outpatient Cardiology Management Programs. This program is intended to help providers easily and effectively deliver quality patient care.

Effective May 1, 2024, cardiology invasive procedures services will require prior authorization through Evolent rendered in a physician's office, outpatient hospital, ambulatory, or inpatient setting (planned professional services only) will require prior authorization through Evolent.

WellCare authorizations issued before May 1, 2024, will be effective until the authorization end date. This management programs will apply to your **WellCare Medicaid** members 18 years of age and older. For members under age 18, authorizations must be obtained from WellCare of North Carolina.

A list of codes that will require an authorization on May 1, 2023 can be found below.

Prior authorization requests for invasive cardiology services can be submitted to Evolent:

- Online my.newcenturyhealth.com.
- Via telephone at 1-888-999-7713, (Option 1) Staff is available Monday-Saturday from 8:00 a.m. to 8:00 p.m. EST.

Evolent uses clinical criteria based on nationally recognized guidelines to promote evidence-based practices. When using Evolent's web portal, you will be able to:

- Obtain real-time approvals when selecting evidence-based treatment care pathways
- Determine the clinical documentation required for medical necessity review
- View all submitted requests
- Request to speak with clinicians to discuss treatment options

WellCare is proud to be your healthcare partner. If you frequently request cardiology services and are new to this process, Evolent representatives will contact you soon to schedule an introductory meeting and training.

If you have questions about the Evolent invasive cardiology services program, please email providertraining@newcenturyhealth.com or call 1-888-999-7713, (Option 6). For any other questions, reach out to your WellCare provider rep or email ncproviderrelations@wellcare.com.

We look forward to working with you.

Sincerely,

WellCare of North Carolina

Cardio Codes	Classification				
33202	Insertion of epicardial electrode(s); open incision (e.g., thoracotomy, median sternotomy, subxiphoid approach)				
33203	Insertion of epicardial electrode(s); endoscopic approach (e.g., thoracoscopy, pericardioscopy)				
33206	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); atrial				
33207	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); ventricular				
33208	Insertion of new or replacement of permanent pacemaker with transvenous electrode(s); atrial and ventricular				
33210	Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter (separate procedure)				
33211	Insertion or replacement of temporary transvenous dual chamber pacing electrodes (separate procedure)				
33212	Insertion of Pacemaker Pulse Generator Only; with Existing single Lead				
33213	Insertion of Pacemaker Pulse Generator Only; with Existing Dual Leads				
33214	Upgrade of implanted pacemaker system, conversion of single chamber system to dual chamber system (includes removal of previously placed pulse generator, testing of existing lead, insertion of new pulse generator)				
33215	Repositioning of previously implanted transvenous pacemaker or implantable defibrillator (right atrial or right ventricular) electrode				
33216	Insertion of a single transvenous electrode, permanent pacemaker or implantable defibrillator				
33217	Insertion of 2 transvenous electrodes, permanent pacemaker or implantable defibrillator				
33218	Repair of single transvenous electrode, permanent pacemaker or implantable defibrillator				
33220	Repair of 2 transvenous electrodes for permanent pacemaker or implantable defibrillator				
33221	Insertion of Pacemaker Pulse Generator Only; with Existing Multiple Leads				
33222	Relocation of Skin Pocket for Pacemaker				
33223	Relocation of skin pocket for implantable defibrillator				
33224	Insertion of pacing electrode, cardiac venous system, for left ventricular pacing, with attachment to previously placed pacemaker or implantable defibrillator pulse generator (including revision of pocket, removal, insertion, and/or replacement of existing generator)				
33225	Insertion of pacing electrode, cardiac venous system, for left ventricular pacing, at time of insertion of implantable defibrillator or pacemaker pulse generator (e.g., for upgrade to dual chamber system) (List separately in addition to code for primary procedure)				
33226	Repositioning of previously implanted cardiac venous system (left ventricular) electrode (including removal, insertion and/or replacement of existing generator)				
33227	Removal of Permanent Pacemaker Pulse Generator with Replacement of Pacemaker Pulse Generator; single Lead System				
33228	Removal of Permanent Pacemaker Pulse Generator with Replacement of Pacemaker Pulse Generator; Dual Lead System				
33229	Removal of Permanent Pacemaker Pulse Generator with Replacement of Pacemaker Pulse Generator; Multiple Lead System				
33230	Insertion of implantable defibrillator pulse generator only; with existing dual leads				
33231	Insertion of implantable defibrillator pulse generator only; with existing multiple leads				
33233	Removal of permanent pacemaker pulse generator only				
33234	Removal of transvenous pacemaker electrode(s); single lead system, atrial or ventricular				
33235	Removal of transvenous pacemaker electrode(s); dual lead system				
33236	Removal of permanent epicardial pacemaker and electrodes by thoracotomy; single lead system, atrial or ventricular				
33237	Removal of permanent epicardial pacemaker and electrodes by thoracotomy; dual lead system				
33240	Insertion of implantable defibrillator pulse generator only; with existing single lead				

33241	Removal of implantable defibrillator pulse generator only				
33243	Removal of single or dual chamber implantable defibrillator electrode(s); by thoracotomy				
33244	Removal of single or dual chamber implantable defibrillator electrode(s); by transvenous extraction				
33249	Insertion or replacement of permanent implantable defibrillator system, with transvenous lead(s), single or dual chamber				
33262	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; single lead system				
33263	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; dual lead system				
33264	Removal of implantable defibrillator pulse generator with replacement of implantable defibrillator pulse generator; multiple lead system				
33270	Insertion or replacement of permanent subcutaneous implantable defibrillator system, with subcutaneous electrode, including defibrillation threshold evaluation, induction of arrhythmia, evaluation of sensing for arrhythmia termination, and programming or reprogramming of sensing or therapeutic parameters, when performed				
33271	Insertion of subcutaneous implantable defibrillator electrode				
33272	Removal of subcutaneous implantable defibrillator electrode				
33273	Repositioning of previously implanted subcutaneous implantable defibrillator electrode				
33285	Insertion, subcutaneous cardiac rhythm monitor, including programming				
33286	Removal, subcutaneous cardiac rhythm monitor				
33361	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; percutaneous femoral artery approach				
33362	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; open femoral artery approach				
33363	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; open axillary artery approach				
33364	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; open iliac artery approach				
33365	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; transaortic approach (e.g. median sternotomy, mediastinotomy)				
33366	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; transapical exposure (e.g. left thoracotomy)				
33367	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; cardiopulmonary bypass support with percutaneous peripheral arterial and venous cannulation (e.g., femoral vessels) (List separately in addition to code for primary procedure)				
33368	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; cardiopulmonary bypass support with open peripheral arterial and venous cannulation (e.g., femoral, iliac, axillary vessels) (List separately in addition to code for primary procedure)				
33369	Transcatheter aortic valve replacement (TAVR/TAVI) with prosthetic valve; cardiopulmonary bypass support with central arterial and venous cannulation (e.g., aorta, right atrium, pulmonary artery) (List separately in addition to code for primary procedure)				
33405	Replacement, aortic valve, open, with cardiopulmonary bypass; with prosthetic valve other than homograft or stentless valve				
33406	Replacement, aortic valve, open, with cardiopulmonary bypass; with allograft valve (freehand)				
33410	Replacement, aortic valve, open, with cardiopulmonary bypass; with stentless tissue valve				
33411	Replacement, aortic valve; with aortic annulus enlargement, noncoronary sinus				
33412	Replacement, aortic valve; with transventricular aortic annulus enlargement (Konno procedure)				
33413	Replacement, aortic valve; by translocation of autologous pulmonary valve with allograft replacement of pulmonary valve (Ross procedure)				

33425	Valvuloplasty, mitral valve, with cardiopulmonary bypass;				
33426	Valvuloplasty, mitral valve, with cardiopulmonary bypass; with prosthetic ring				
33427	Valvuloplasty, mitral valve, with cardiopulmonary bypass; radical reconstruction, with or without ring				
33430	Replacement, Mitral Valve, with Cardiopulmonary Bypass				
33465	Replacement, Mitral Valve, with Cardiopulmonary Bypass Replacement, Tricuspid Valve, with Cardiopulmonary Bypass				
33475	Replacement, Pulmonary Valve				
33477	Transcatheter pulmonary valve implantation, percutaneous approach, including pre-stenting of the valve delivery site, when performed				
33510	Coronary artery bypass, vein only; single coronary venous graft				
33511	Coronary artery bypass, vein only; 2 coronary venous grafts				
33512	Coronary artery bypass, vein only; 3 coronary venous grafts				
33513	Coronary artery bypass, vein only; 4 coronary venous grafts				
33514	Coronary artery bypass, vein only; 5 coronary venous grafts				
33516	Coronary artery bypass, vein only; 6 or more coronary venous grafts				
33517	Coronary artery bypass, using venous graft(s) and arterial graft(s); single vein graft (List separately in addition to code for primary procedure)				
33518	Coronary artery bypass, using venous graft(s) and arterial graft(s); 2 venous grafts (List separately in addition to code for primary procedure)				
33519	Coronary artery bypass, using venous graft(s) and arterial graft(s); 3 venous grafts (List separately in addition to code for primary procedure)				
33521	Coronary artery bypass, using venous graft(s) and arterial graft(s); 4 venous grafts (List separately in addition to code for primary procedure)				
33522	Coronary artery bypass, using venous graft(s) and arterial graft(s); 5 venous grafts (List separately in addition to code for primary procedure)				
33523	Coronary artery bypass, using venous graft(s) and arterial graft(s); 6 or more venous grafts (List separately in addition to code for primary procedure)				
33530	Reoperation, coronary artery bypass procedure or valve procedure, more than 1 month after original operation (List separately in addition to code for primary procedure)				
33533	Coronary Artery Bypass, Using Arterial Graft(S); single Arterial Graft				
33534	Coronary Artery Bypass, Using Arterial Graft(S); 2 Coronary Arterial Grafts				
33535	Coronary Artery Bypass, Using Arterial Graft(S); 3 Coronary Arterial Grafts				
33536	Coronary artery bypass, using arterial graft(s); 4 or more coronary arterial grafts				
33572	Coronary endarterectomy, open, any method, of left anterior descending, circumflex, or right coronary artery performed in conjunction with coronary artery bypass graft procedure, each vessel (List separately in addition to primary procedure)				
33641	Repair atrial Septal Defect, Secundum, with Cardiopulmonary Bypass, with or without Patch				
33768	Anastomosis, cavopulmonary, second superior vena cava (List separately in addition to primary procedure)				
33820	Repair of patent ductus arteriosus; by ligation				
33840	Excision of coarctation of aorta, with or without associated patent ductus arteriosus; with direct anastomosis				
33917	Repair of pulmonary artery stenosis by reconstruction with patch or graft				

33924	Ligation and takedown of a systemic-to-pulmonary artery shunt, performed in conjunction with a congenital heart procedure (List separately in addition to code for primary procedure)					
35001	Direct repair of aneurysm, pseudoaneurysm, or excision (partial or total) and graft insertion, with or without patch graft; for aneurysm and associated occlusive disease, carotid, subclavian artery, by neck incision					
35011	Direct repair of aneurysm, pseudoaneurysm, or excision (partial or total) and graft insertion, with or without patch graft; for aneurysm and associated occlusive disease, axillary-brachial artery, by arm incision					
35141						
35151	Direct repair of aneurysm, pseudoaneurysm, or excision (partial or total) and graft insertion, with or without patch graft; for aneurysm, pseudoaneurysm, and associated occlusive disease, popliteal artery					
35301	Thromboendarterectomy, including patch graft, if performed; carotid, vertebral, subclavian, by neck incision					
35302	Thromboendarterectomy, including patch graft, if performed; superficial femoral artery					
35303	Thromboendarterectomy, including patch graft, if performed; popliteal artery					
35304	Thromboendarterectomy, including patch graft, if performed; tibioperoneal trunk artery					
35305	Thromboendarterectomy, including patch graft, if performed; tibial or peroneal artery, initial vessel					
35306	Thromboendarterectomy, including patch graft, if performed; each additional tibial or peroneal artery (List separately in addition to code for primary procedure)					
35351	Thromboendarterectomy, including Patch Graft, If Performed; Iliac					
35355	Thromboendarterectomy, including Patch Graft, If Performed; Iliofemoral					
35371	Thromboendarterectomy, including Patch Graft, If Performed; Common Femoral					
35372	Thromboendarterectomy, including Patch Graft, If Performed; Deep (Profunda) Femoral					
35390	Reoperation, carotid, thromboendarterectomy, more than 1 month after original operation (List separately in addition to code for primary procedure) Harvest of upper extremity up 1 segment, for lower extremity or coronary artery bypass procedure					
35500	Harvest of upper extremity vein, 1 segment, for lower extremity or coronary artery bypass procedure (List separately in addition to code for primary procedure)					
35556	Bypass Graft, with Vein; Femoral-Popliteal					
35558	Bypass Graft, with Vein; Femoral-Femoral					
35566	Bypass graft, with vein; femoral-anterior tibial, posterior tibial, peroneal artery or other distal vessels					
35571	Bypass graft, with vein; popliteal-tibial, -peroneal artery or other distal vessels					
35572	Harvest of femoropopliteal vein, 1 segment, for vascular reconstruction procedure (e.g., aortic, vena caval, coronary, peripheral artery) (List separately in addition to code for primary procedure)					
35583	In-situ vein bypass; femoral-popliteal					
35585	In-situ vein bypass; femoral-anterior tibial, posterior tibial, or peroneal artery					
35587	In-situ vein bypass; popliteal-tibial, peroneal					
35600	Harvest of upper extremity artery, 1 segment, for coronary artery bypass procedure, open					
35621	Bypass Graft, with Other than Vein; Axillary-Femoral					
35646	Bypass Graft, with Other than Vein; Aortobifemoral					
	Bypass Graft, with Other than Vein; Axillary-Femoral-Femoral					

35656	Bypass Graft, with Other than Vein; Femoral-Popliteal					
35661	Bypass graft, with other than vein; femoral-femoral					
35665	Bypass Graft, with Other than Vein; Iliofemoral					
35666	Bypass graft, with other than vein; femoral-anterior tibial, posterior tibial, or peroneal artery					
35671	Bypass graft, with other than vein; popliteal-tibial or -peroneal artery					
35700	Reoperation, femoral-popliteal or femoral (popliteal)-anterior tibial, posterior tibial, peroneal artery, or other distal vessels, more than 1 month after original operation (List separately in addition to code for primary procedure)					
35881	Revision, lower extremity arterial bypass, without thrombectomy, open; with segmental vein interposition					
35883	Revision, femoral anastomosis of synthetic arterial bypass graft in groin, open; with nonautogenous patch graft (e.g., Dacron, ePTFE, bovine pericardium)					
35884	Revision, femoral anastomosis of synthetic arterial bypass graft in groin, open; with autogenous vein patch graft					
36005	Injection procedure for extremity venography (including introduction of needle or intracatheter)					
36140	Introduction of needle or intracatheter, upper or lower extremity artery					
36200	Introduction of Catheter, Aorta					
36215	Selective catheter placement, arterial system; each first order thoracic or brachiocephalic branch, within a vascular family					
36216	Selective catheter placement, arterial system; initial second order thoracic or brachiocephalic branch, within a vascular family					
36217	Selective Catheter Placement, Arterial System; initial Third order or More Selective Thoracic or Brachiocephalic Branch, within A Vascular Family					
36218	Selective catheter placement, arterial system; additional second order, third order, and beyond, thoracic or brachiocephalic branch, within a vascular family (List in addition to code for initial secon					
36245	or third order vessel as appropriate) Selective catheter placement, arterial system; each first order abdominal, pelvic, or lower extremity artery branch, within a vascular family					
36246	artery branch, within a vascular family Selective catheter placement, arterial system; initial second order abdominal, pelvic, or lower extremity artery branch, within a vascular family					
36247	Selective catheter placement, arterial system; initial third order or more selective abdominal, pelvic, or lower extremity artery branch, within a vascular family					
36251	Selective catheter placement (first-order), main renal artery and any accessory renal artery(s) for renal angiography, including arterial puncture and catheter placement(s), fluoroscopy, contrast injection(s), image postprocessing, permanent recording of images, and radiological supervision a interpretation, including pressure gradient measurements when performed, and flush aortogram when performed; unilateral					
36252	Selective catheter placement (first-order), main renal artery and any accessory renal artery(s) for renal angiography, including arterial puncture and catheter placement(s), fluoroscopy, contrast injection(s), image postprocessing, permanent recording of images, and radiological supervision and interpretation, including pressure gradient measurements when performed, and flush aortogram when performed; bilateral					
36253	Superselective catheter placement (one or more second order or higher renal artery branches) renal artery and any accessory renal artery(s) for renal angiography, including arterial puncture, catheterization, fluoroscopy, contrast injection(s), image postprocessing, permanent recording of images, and radiological supervision and interpretation, including pressure gradient measurements when performed, and flush aortogram when performed; unilateral					
Superselective catheter placement (one or more second order or higher renal artery branch artery and any accessory renal artery(s) for renal angiography, including arterial punct catheterization, fluoroscopy, contrast injection(s), image postprocessing, permanent reco images, and radiological supervision and interpretation, including pressure gradient measu when performed, and flush aortogram when performed; bilateral

(List separately in addition to code for primary procedure) Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all	37233	
additional vessel; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		(List separately in addition to code for primary procedure)
when performed (List separately in addition to code for primary procedure) Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each
when performed (List separately in addition to code for primary procedure) Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all	37234	additional vessel; with transluminal stent placement(s), includes angioplasty within the same vessel,
Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		when performed (List separately in addition to code for primary procedure)
additional vessel; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
the same vessel, when performed (List separately in addition to code for primary procedure) Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all	37235	
Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
open or percutaneous, including radiological supervision and interpretation and including all angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
angioplasty within the same vessel, when performed; initial artery Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all	37236	
Transcatheter placement of an intravascular stent(s) (except lower extremity artery(s) for occlusive disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
disease, cervical carotid, extracranial vertebral or intrathoracic carotid, intracranial, or coronary), open or percutaneous, including radiological supervision and interpretation and including all		
37237 open or percutaneous, including radiological supervision and interpretation and including all	37237	
		angioplasty within the same vessel, when performed; each additional artery (List separately in
addition to code for primary procedure)		addition to code for primary procedure)

37238	Transcatheter Placement of An Intravascular Stent(S), Open or Percutaneous, including Radiological Supervision and Interpretation and including Angioplasty within the Same Vessel, when Performed; initial Vein					
37239	Transcatheter placement of an intravascular stent(s), open or percutaneous, including radiological supervision and interpretation and including angioplasty within the same vessel, when performed, each additional vein (List separately in addition to code for primary procedure)					
37246	Transluminal balloon angioplasty (except lower extremity artery(ies) for occlusive disease, intracranial, coronary, pulmonary, or dialysis circuit), open or percutaneous, including all imaging an radiological supervision and interpretation necessary to perform the angioplasty within the same artery; initial artery					
37247	Transluminal balloon angioplasty (except lower extremity artery(ies) for occlusive disease, intracranial, coronary, pulmonary, or dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same artery; each additional artery (List separately in addition to code for primary procedure)					
37248	Transluminal balloon angioplasty (except dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same vein; initial vein					
37249	Transluminal balloon angioplasty (except dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same vein; each additional vein (List separately in addition to code for primary procedure)					
37765	Stab phlebectomy of varicose veins, 1 extremity; 10-20 stab incisions					
75625	Aortography, abdominal, by serialography, radiological supervision and interpretation					
75630	Aortography, abdominal plus bilateral iliofemoral lower extremity, catheter, by serialography, radiological supervision and interpretation					
75710	Angiography, extremity, unilateral, radiological supervision and interpretation					
75716	Angiography, extremity, bilateral, radiological supervision and interpretation					
75726	Angiography, visceral, selective or supraselective (with or without flush aortogram), radiological supervision and interpretation					
75736	Angiography, pelvic, selective or supraselective, radiological supervision and interpretation					
76937	Ultrasound guidance for vascular access requiring ultrasound evaluation of potential access sites, documentation of selected vessel patency, concurrent realtime ultrasound visualization of vascular needle entry, with permanent recording and reporting (List separately in addition to code for primal procedure)					
92920	Percutaneous Transluminal Coronary Angioplasty; single Major Coronary Artery or Branch					
92924	Percutaneous Transluminal Coronary atherectomy, with Coronary Angioplasty when Performed; single Major Coronary Artery or Branch					
92928	Percutaneous transcatheter placement of intracoronary stent(s), with coronary angioplasty when performed; single major coronary artery or branch					
92933	Percutaneous Transluminal Coronary atherectomy, with Intracoronary Stent, with Coronary Angioplasty when Performed; single Major Coronary Artery or Branch					
92937	Percutaneous transluminal revascularization of or through coronary artery bypass graft (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel					
92943	Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel					
92960	Cardioversion, elective, electrical conversion of arrhythmia; external					
92961	Cardioversion, elective, electrical conversion of arrhythmia; internal (separate procedure)					
92973	Percutaneous transluminal coronary thrombectomy mechanical (List separately in addition to code for primary procedure)					
92974	Transcatheter placement of radiation delivery device for subsequent coronary intravascular brachytherapy (List separately in addition to code for primary procedure)					
92978	Endoluminal imaging of coronary vessel or graft using intravascular ultrasound (IVUS) or optical coherence tomography (OCT) during diagnostic evaluation and/or therapeutic intervention including					

	imaging supervision, interpretation and report; initial vessel (List separately in addition to code for primary procedure)					
92979	Endoluminal imaging of coronary vessel or graft using intravascular ultrasound (IVUS) or optical coherence tomography (OCT) during diagnostic evaluation and/or therapeutic intervention including imaging supervision, interpretation and report; each additional vessel (List separately in addition to code for primary procedure)					
92986	Percutaneous balloon valvuloplasty; aortic valve					
92987	Percutaneous balloon valvuloplasty; mitral valve					
92997	Percutaneous transluminal pulmonary artery balloon angioplasty; single vessel					
92998	Percutaneous transluminal pulmonary artery balloon angioplasty; each additional vessel (List separately in addition to code for primary procedure)					
93292	Interrogation device evaluation (in person) with analysis, review and report by a physician or other qualified health care professional, includes connection, recording and disconnection per patient encounter; wearable defibrillator system					
93451	Right heart catheterization including measurement(s) of oxygen saturation and cardiac output, when performed					
93452	Left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed					
93453	Combined right and left heart catheterization including intraprocedural injection(s) for left ventriculography, imaging supervision and interpretation, when performed					
93454	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation;					
93455	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) including					
93456	intraprocedural injection(s) for bypass graft angiography Catheter placement in coronary artery(s) for coronary angiography, including intraprocedura injection(s) for coronary angiography, imaging supervision and interpretation; with right hear catheterization					
93457	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) including intraprocedural injection(s) for bypass graft angiography and right heart catheterization					
93458	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedur injection(s) for coronary angiography, imaging supervision and interpretation; with left hea catheterization including intraprocedural injection(s) for left ventriculography, when perform					
93459	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed, catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous grafts) with bypass graft angiography					
93460	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right and left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed					
93461	Catheter placement in coronary artery(s) for coronary angiography, including intraprocedural injection(s) for coronary angiography, imaging supervision and interpretation; with right and left heart catheterization including intraprocedural injection(s) for left ventriculography, when performed, catheter placement(s) in bypass graft(s) (internal mammary, free arterial, venous graft with bypass graft angiography					
93462	Left heart catheterization by transseptal puncture through intact septum or by transapical puncture (List separately in addition to code for primary procedure)					
93463	Pharmacologic agent administration (e.g., inhaled nitric oxide, intravenous infusion of nitroprusside dobutamine, milrinone, or other agent) including assessing hemodynamic measurements before, during, after and repeat pharmacologic agent administration, when performed (List separately in addition to code for primary procedure)					
93464	Physiologic exercise study (e.g., bicycle or arm ergometry) including assessing hemodynamic measurements before and after (List separately in addition to code for primary procedure)					

93505	Endomyocardial Biopsy				
93563	Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for selective coronary angiography during congenital heart catheterization (List separately in addition to code for primary procedure)				
93564	Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for selective opacification of aortocoronary venous or arterial bypass graft(s) (e.g., aortocoronary saphenous vein, free radial artery, or free mammary artery graft) to one or more coronary arteries and in situ arterial conduits (e.g., internal mammary), whether native or used for bypass to one or more coronary arteries during congenital heart catheterization, when performed (List separately in addition to code for primary procedure)				
93565	Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for selective left ventricular or left atrial angiography (List separately in addition to code for primary procedure)				
93566	Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for selective right ventricular or right atrial angiography (List separately in addition to code for primary procedure)				
93567	Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for supravalvular aortography (List separately in addition to code for primary procedure)				
93568	Injection procedure during cardiac catheterization including imaging supervision, interpretation, and report; for pulmonary angiography (List separately in addition to code for primary procedure)				
93571	Intravascular Doppler velocity and/or pressure derived coronary flow reserve measurement (coronary vessel or graft) during coronary angiography including pharmacologically induced stress; initial vessel (List separately in addition to code for primary procedure)				
93572	Intravascular Doppler velocity and/or pressure derived coronary flow reserve measurement (coronary vessel or graft) during coronary angiography including pharmacologically induced stress; each additional vessel (List separately in addition to code for primary procedure)				
93580	Percutaneous transcatheter closure of congenital interatrial communication (i.e., Fontan fenestration, atrial septal defect) with implant				
93581	Percutaneous transcatheter closure of a congenital ventricular septal defect with implant				
93582	Percutaneous transcatheter closure of patent ductus arteriosus				
93590	Percutaneous transcatheter closure of paravalvular leak; initial occlusion device, mitral valve				
93591	Percutaneous transcatheter closure of paravalvular leak; initial occlusion device, aortic valve				
93592	Percutaneous transcatheter closure of paravalvular leak; each additional occlusion device (List separately in addition to code for primary procedure)				
93609	Intraventricular and/or intra-atrial mapping of tachycardia site(s) with catheter manipulation to record from multiple sites to identify origin of tachycardia (List separately in addition to code for primary procedure)				
93613	Intracardiac electrophysiologic 3-dimensional mapping (List separately in addition to code for primary procedure)				
93619	Comprehensive electrophysiologic evaluation with right atrial pacing and recording, right ventricular pacing and recording, His bundle recording, including insertion and repositioning of multiple electrode catheters, without induction or attempted induction of arrhythmia				
93620	Comprehensive electrophysiologic evaluation including insertion and repositioning of multiple electrode catheters with induction or attempted induction of arrhythmia; with right atrial pacing and recording, right ventricular pacing and recording, His bundle recording				
93621	Comprehensive electrophysiologic evaluation including insertion and repositioning of multiple electrode catheters with induction or attempted induction of arrhythmia; with left atrial pacing and recording from coronary sinus or left atrium (List separately in addition to code for primary procedure)				
93622	Comprehensive electrophysiologic evaluation including insertion and repositioning of multiple electrode catheters with induction or attempted induction of arrhythmia; with left ventricular pacing and recording (List separately in addition to code for primary procedure)				
93623	Programmed stimulation and pacing after intravenous drug infusion (List separately in addition to code for primary procedure)				
93650	Intracardiac catheter ablation of atrioventricular node function, atrioventricular conduction for creation of complete heart block, with or without temporary pacemaker placement				

93653	Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and His bundle recording, when performed; with treatment of supraventricular tachycardia by ablation of fast or slow atrioventricular pathway, accessory atrioventricular connection, cavo-tricuspid isthmus or other single atrial focus or source of atrial reentry					
93654	Comprehensive electrophysiologic evaluation with insertion and repositioning of multiple electrode catheters, induction or attempted induction of an arrhythmia with right atrial pacing and recording and catheter ablation of arrhythmogenic focus, including intracardiac electrophysiologic 3-dimensional mapping, right ventricular pacing and recording, left atrial pacing and recording from coronary sinus or left atrium, and His bundle recording, when performed; with treatment of ventricular tachycardia or focus of ventricular ectopy including left ventricular pacing and recording, when performed					
93655	Intracardiac catheter ablation of a discrete mechanism of arrhythmia which is distinct from the primary ablated mechanism, including repeat diagnostic maneuvers, to treat a spontaneous or induced arrhythmia (List separately in addition to code for primary procedure)					
93656	Comprehensive electrophysiologic evaluation including transseptal catheterizations, insertion and repositioning of multiple electrode catheters with intracardiac catheter ablation of atrial fibrillation by pulmonary vein isolation, including intracardiac electrophysiologic 3-dimensional mapping, intracardiac echocardiography including imaging supervision and interpretation, induction or attempted induction of an arrhythmia including left or right atrial pacing/recording, right ventricular pacing/recording, and His bundle recording, when performed					
93657	Additional linear or focal intracardiac catheter ablation of the left or right atrium for treatment of atrial fibrillation remaining after completion of pulmonary vein isolation (List separately in addition to code for primary procedure)					
93662	Intracardiac echocardiography during therapeutic/diagnostic intervention, including imaging supervision and interpretation (List separately in addition to code for primary procedure)					
93745	Initial set-up and programming by a physician or other qualified health care professional of wearable cardioverter-defibrillator includes initial programming of system, establishing baseline electronic ECG, transmission of data to data repository, patient instruction in wearing system and patient reporting of problems or events					
36473	Endovenous ablation therapy of incompetent vein, extremity, inclusive of all imaging guidance and monitoring, percutaneous, mechanochemical; first vein treated					
36474	Endovenous ablation therapy of incompetent vein, extremity, inclusive of all imaging guidance and monitoring, percutaneous, mechanochemical; subsequent vein(s) treated in a single extremity, each through separate access sites (List separately in addition to code for primary procedure)					
36479	Endovenous ablation therapy of incompetent vein, extremity, inclusive of all imaging guidance and monitoring, percutaneous, laser; subsequent vein(s) treated in a single extremity, each through separate access sites (List separately in addition to code for primary procedure)					
37766	Stab phlebectomy of varicose veins, 1 extremity; more than 20 incisions					
33440	Replacement, aortic valve; by translocation of autologous pulmonary valve and transventricula aortic annulus enlargement of the left ventricular outflow tract with valved conduit replacement pulmonary valve (Ross-Konno procedure)
