Home Health Checklist

Please review each statement on the checklist:

If you can mark the item off as completed, there is nothing else for you to do on this specific line item. Continue to the next item. If any items remain unchecked, this means that you still have items to complete to ensure all tasks are finished. Once completed, you can check off that item and proceed to the next line.

- My taxonomy code is 251E00000X.
- I understand what revenue codes must be used for EVV.
 - I have reviewed the Home Health EVV Billing Guide that includes the HCPCS/CPT and corresponding revenue codes.
