  - **A.** Only in the Member's private primary residence to prevent institutionalization.;
  - **B.** under the direction of a written individualized plan of care; **AND**
  - C. as authorized by the Member's primary physician; and
  - **D.** PDN services must be rendered by a registered nurse (RN) or licensed practical nurse (LPN) who is licensed by the North Carolina Board of Nursing (NCBON) and employed by a state licensed and accredited home care agency.
- II. WellCare of North Carolina<sup>®</sup>, consistent with NC Medicaid policy, shall determine the amount, duration, scope, and sufficiency of PDN services **not to exceed 112 hours per week** required by the Member based on a comprehensive review of all the submitted documents, along with the following characteristics of the Member:
  - A. Active primary and secondary diagnosis;
  - **B.** Overall health status (i.e., mobility, nutrition, recent hospitalizations);
  - C. Level and type of technology dependency;
  - **D.** Amount and frequency of specialized skilled nursing interventions required;
  - E. Amount of caregiver assistance available. WellCare of NC® reserves the right to request verification of each caregiver's employment schedule annually, and as deemed appropriate by WellCare of NC®. Allowances are not for second jobs, overtime, or combination of work and school, when the additional hours cause the policy limit to be exceeded. The NC Medicaid PDN policy available at <a href="Program Specific Clinical Coverage Policies">Program Specific Clinical Coverage Policies</a> | NC Medicaid (ncdhhs.gov) provides additional guidance on the PDN hour limitation based on caregiver type and availability.

Hours are approved on a per-week basis beginning 12:01 a.m. Sunday and ending at 12:00 a.m. Saturday. A Member may use the hours as they choose within the week.. It is the responsibility of the Member and caregiver to schedule time to ensure the health and safety of the Member. Additional hours are not approved because the family planned poorly and 'ran out' before the end of the week. The hours approved are based on the needs of the Member and caregiver availability, not the needs of other individuals residing in the home.

**Note**: Unused hours of services shall not be "banked" for future use or "rolled over" to another week.

#### **North Carolina Guidance**

Eligibility Requirements

- a. An eligible beneficiary shall be enrolled in the NC Medicaid Program (Medicaid is NC Medicaid program, unless context clearly indicates otherwise);
- b. Provider(s) shall verify each Medicaid beneficiary's eligibility each time a service is rendered.
- c. The Medicaid beneficiary may have service restrictions due to their eligibility category that would make them ineligible for this service.

EPSDT Special Provision: Exception to Policy Limitations for a Medicaid Beneficiary under 21 Years of Age

a. 42 U.S.C. § 1396d(r) [1905(r) of the Social Security Act] Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) is a federal Medicaid requirement that requires the state Medicaid agency to cover services, products, or procedures for Medicaid beneficiary under 21 years of age if the service is medically necessary health care to correct or ameliorate a defect, physical or mental illness, or a condition [health problem] identified through a screening examination (includes any evaluation by a physician or other licensed practitioner).

This means EPSDT covers most of the medical or remedial care a child needs to improve or maintain his or her health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

Medically necessary services will be provided in the most economic mode, as long as the treatment made available is similarly efficacious to the service requested by the beneficiary's physician, therapist, or other licensed practitioner; the determination process does not delay the delivery of the needed service; and the determination does not limit the beneficiary's right to a free choice of providers.

EPSDT does not require the state Medicaid agency to provide any service, product or procedure:

- 1. that is unsafe, ineffective, or experimental or investigational.
- 2. that is not medical in nature or not generally recognized as an accepted method of medical practice or treatment.

Service limitations on scope, amount, duration, frequency, location of service, and other specific criteria described in clinical coverage policies may be exceeded or may not apply as long as the provider's documentation shows that the requested service is medically necessary "to correct or ameliorate a defect, physical or mental illness, or a condition" [health problem]; that is, provider documentation shows how the service, product, or procedure meets all EPSDT criteria, including to correct or improve or maintain the beneficiary's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.

#### **EPSDT and Prior Approval Requirements**

- 1. If the service, product, or procedure requires prior approval, the fact that the beneficiary is under 21 years of age does NOT eliminate the requirement for prior approval.
- 2. **IMPORTANT ADDITIONAL INFORMATION** about EPSDT and prior approval is found in the *NCTracks Provider Claims and Billing Assistance Guide*, and on the EPSDT provider page. The Web addresses are specified below: *NCTracks Provider Claims and Billing Assistance Guide*:
